AERO® brand aerosols are the finest available anywhere. A full range of solutions, from cleaning, to pest control. No other products can match our standards or our commitment to quality.

HIGHLIGHTS

- Blows dust off precision components
- "Dry cleaning"
- No ozone depleting chemicals
- Non-flammable aerosol* (when used as directed)

TYPICAL PROPERTIES

- Specific Gravity: 0.9(liquid)
- Odor: Slight ethereal
- Propellant: 1,1,1 2-Tetrafluoroethane
- Spray Characteristics:
 Powerful blast
- Appearance: Clear, colorless
- Net Weight: 10 ounces

SAFETY CAUTIONS

- Keep out of reach of children.
- Contents under pressure. Do not expose to heat or store at temperatures exceeding 120° F. Do not use near sparks or open flames. Do not puncture or incinerate container. Wrap empty container and put in trash collection.
- Refer to M.S.D.S. and product label for additional safety information.

Canned Air "DRY CLEANING"

QUICKLY REMOVES DUST AND DIRT FROM COMPUTERS AND ELECTRONIC EQUIPMENT

For Computers, Printers, Fax Machines, Copiers, Audio, Video, Photo

■ NON-FLAMMABLE* ■ POWER TRIGGER SPRAY

Pressurized, highly volatile product for "dry cleaning" of electrical and electronic equipment. Recommended use: 2-3 times per week, or more often if office environment is dusty.

DIRECTIONS:

- Turn off all equipment before using. Do not shake or tilt can before using. Always use in upright position. Tilting or inverting can cause gas to be dispensed as a cold moist fluid which could alter the appearance of plastics or other materials. DO NOT USE ON CAMERA MIRRORS.
- Before use, point away from objects and squeeze trigger to clear valve of any liquid.
- Hold can vertically from area to be dusted and use short, quick blasts.
- Use attached extension tube for hard-toreach areas.

CAUTION: HIGH PRESSURE. DO NOT STORE IN VEHICLES OR IN HIGH TEMPERATURE AREAS ABOVE 120°F/49°C. Do not puncture or incinerate. Exposure to heat may cause bursting. Store in adequately ventilated area. VAPOR HARMFUL. Contact with open flame/hot surfaces can cause toxic vapor decomposition. Vapor heavier than air displaces oxygen available for breathing. Use only with adequate ventilation. SKIN or EYE IRRITANT. Do not shake, tilt or turn can upside down before or during use, as contents may cause severe burns (frostbite) on contact with skin or eye. Intentional misuse by deliberately concentrating and/or inhaling the contents can be harmful and may cause heart irregularities, unconsciousness or death.
