## Mop Dressing Dust Mop Treatment

This dressing is formulated to clean and restore lustre to wood, concrete and other non-acrylic flooring by attracting dirt and dust to the mop while leaving a sheen on the floor.

### DIRECTIONS:

- For best results spray dressing directly on mop.
- Apply sparingly but consistently and thoroughly throughout the mop head.
- It may be applied directly to the floor if desired, but should be done so lightly and then spread evenly onto the surface with a mop.
