

# aero<sup>®</sup> disinfectant cleaners

All AERO<sup>®</sup> disinfectant cleaners are federally registered with the EPA

## HIGHLIGHTS

- 80% Pine Oil Formulation
- Excellent deodorizer
- 1:100 dilution

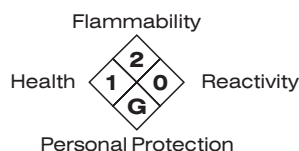

## TYPICAL PROPERTIES

- Specific Gravity: **0.945**
- pH (1% solution): **9.5**
- Pine Oil: **80.0% min.**
- Soap: **10%**
- Solubility in water:  
**Emulsifies**
- Appearance: **Clear amber liquid**
- Fragrance: **Pine**
- USDA: **C-1**

## SAFETY CAUTIONS

- Keep out of reach of children.
- Refer to M.S.D.S. and product label for additional safety information and directions for use..

## HMIS RATINGS

## Pine Oil Disinfectant

### Limited Disinfectant Against Intestinal Bacteria

A one step disinfectant cleaner and deodorizer formulated for commercial and light industrial cleaning. Effective against *Salmonella cholerae* and *Salmonella typhi* when diluted 1:100 with water.

## DIRECTIONS-

Use on walls, floors and inanimate surfaces.

**For best results**, use 4 ounces of disinfectant per 3 gallons of water. Pour the disinfectant into a bucket then add water and apply with mop, sponge or cloth. A fresh solution should be prepared daily when the use solution becomes visibly dirty.

**For heavy soil**, a precleaning step is required. Thoroughly wet the heavily soiled area with undiluted disinfectant and allow to remain wet for 10 minutes.
