

aero® live bacteria/enzymes

AERO® Live Bacteria / Enzymes products contain a synergistic blend of engineered bacterial strains for effective removal of various organic soils. Fortified with free enzymes and detergents.

HIGHLIGHTS

- Reduces manual cleaning of oil/water separators
- Improves the quality of wastewater being discharged
- Keeps drain lines flowing

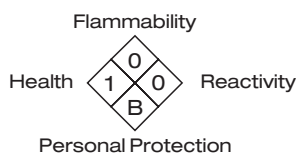

TYPICAL PROPERTIES

- pH: **7.0**
- Specific Gravity: **1.0**
- Appearance: **Colorless liquid**
- Fragrance: **Pleasant**

SAFETY CAUTIONS

- Keep out of reach of children.
- It is recommended that protective gloves and safety glasses be worn when using this product.
- Refer to M.S.D.S. for additional safety information.

HMIS RATINGS

Bio Digester

Naturally Degrades Petroleum Hydrocarbons

Bio Digester is a bacterial inoculant for use in degrading oils, greases and other stubborn organics. It is useful in treating oil/water separators and other collection systems such as are used in the treatment of waste from the cleaning of service bays in automotive maintenance shops.

This product has been specially designed to work with Bio Cleaner as part of the Bioremediating Floor Cleaning System.

For best results this product should be used in conjunction with our Bio Cleaner. Bio Cleaner is an outstanding degreaser which has been specially formulated to provide an acceptable environment for the microorganisms contained in Bio Digester for the degradation of oils and greases.

Directions: Initial seeding: Add 5 gallons of this product directly into the oil/water separator or to a drain discharging to the separator.

Maintenance Dose: Add 12 ounces per day. The actual daily application amount will vary depending on the size of the oil/water separator and its operation conditions.
