

aero[®] aerosol bench maintenance

AERO[®] brand products are the finest available anywhere. No other products can match our standards or our commitment to quality.

HIGHLIGHTS

- High timken load/high resistance to pressure
- Water resistant
- Resist corrosion
- Longer lasting
- Excellent lubricity

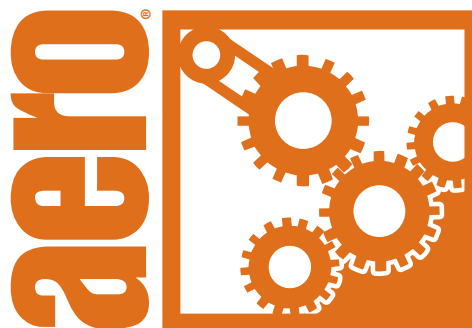

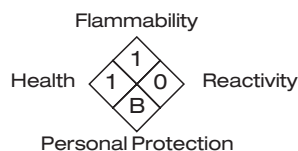

TYPICAL PROPERTIES

- Dilution: **Ready to use**
- Appearance: **Blue grease**
- Odor: **Solvent**
- Cone specifications, D-217: **265-295**
- Dropping point, D-566: **295°F**
- Bearing linkage, D-1263: **Trace**
- Oil separation, D-1742: **None**
- Rust prevention, D-1743: **Perfect pass, no.1 rating**
- Oxidation resistance, D-942: **5psi drop/100hrs for 500 hrs.**
- Timken OK load, D-2509: **55 pounds**
- Consistency grade: **NLGI No.2**
- Approximate temperature range: **0 to 250 °F**

SAFETY CAUTIONS

- Keep out of reach of children.
- It is recommended that protective gloves and safety glasses be worn when using this product.
- Refer to M.S.D.S. for additional safety information.

HMIS RATINGS

S.L.A.P. Stick

Multi-Purpose Lubricant

This product is a synthetic multi-purpose grease capable of handling a wide range of lubrication applications. Because of its stability and its extreme pressure characteristics, it will remain on a bearing surface longer, increase lubrication intervals and prolong bearing life. **Slap stick** has also proven to be highly water resistant.

DIRECTIONS: For best results, it is advisable that old grease be removed prior to application. For ball type grease fittings, fill until old grease is forced out. For exposed surfaces and accessible areas, use a degreaser to remove old grease before applying.
