

aero aerosol solvent degreasers

AERO® brand aerosols are the finest available anywhere. A full range of solutions, from cleaning, to pest control. No other products can match our standards or our commitment to quality.

HIGHLIGHTS

- Fast drying, no residue
- Non-flammable, non-conductive to 24,000 volts
- High solvency

TYPICAL PROPERTIES

- Specific Gravity: **1.32**
- Flash Point: **None**
- Dielectric Strength: **24,000 volts**
- Residue on Drying: **None**
- KB Value: **126**
- Appearance: **Clear Colorless Liquid**
- Odor: **Sweet**
- Net Weight: **12 ounces**

SAFETY CAUTIONS

- Keep out of reach of children.
- Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 120°F may cause bursting.
- Refer to M.S.D.S. for additional safety information.

Millinisolv Safety Solvent Degreaser

- **NON-OZONE DEPLETING, NON-CHLORINATED SOLVENT**
- **NON-FLAMMABLE**
- **NON-CONDUCTIVE TO 24,000 VOLTS**
- **FAST DRYING, LEAVES NO RESIDUE**
- **LOW ODOR**
- **HIGH SOLVENCY**

This product is a new non-chlorinated low odor solvent for a variety of precision cleaning applications. It is non-flammable, fast drying, nonconductive, residue-free and is not subject to regulation under SARA, HAP, or RCRA. It has solvency and cleaning performance equivalent to 1,1,1-trichloroethane and its low viscosity allows for good penetration in difficult to clean crevices, making it an ideal solvent for use in a variety of precision cleaning applications. Under normal aerosol spray use, this product is safe on many plastics and elastomers such as HDPE, polypropylene, phenolics, polyvinyl fluoride, polyurethane and many others; however, certain plastics such as ABS, PVC, polycarbonates and others may be effected. It is compatible with most metals such as aluminum, brass, carbon steel, stainless steel, copper, titanium, magnesium and zinc.

DIRECTIONS-

Test in an inconspicuous area before use. Spray generously over the surface to be cleaned until completely wet. Allow the solvent to set for a minute, then wipe or rinse off with a second spray. Use only with adequate ventilation.
