

aero herbicides

Our AERO® line of Herbicides consists of a full range of non-selective weed killers, including oil and water-based products, liquids and granular, non-residuals and soil sterilants.

HIGHLIGHTS

- Labor Saving
- Concentrated

TYPICAL PROPERTIES

- Dilution-**Water dilutable**
- Odor- **Odorless**
- pH- **8.0**
- Appearance-**Colorless**
- Specific Gravity -**1.13**

SAFETY CAUTIONS

- Keep out of reach of children.
- May be fatal if swallowed, absorbed through skin or inhaled. Causes skin irritation. Do not breathe spray mist. Do not get in eyes or on clothing.
- Refer to M.S.D.S. and product label for additional safety information and directions for use.

HMIS RATINGS

Rite-Hite Liquid Growth Retardant

A Concentrated Liquid growth retardant that inhibits growth of grass, trees, shrubs and ivy. Also controls wild onions garlic, and biennial type weeds. Rite-Hite is absorbed directly into the green grass blades and translocated by the plant fluid to the active growth areas of the plant where all cell division is retarded, thereby aiding in preventing seed head formation and slowing leaf growth. Rite-Hite reduces the need for mowing of hazardous areas where a seasonal growth of 6 to 12 inches can be tolerated. This product can be used along highways, airports, military installations, roughs of golf courses, and similar areas.

See product label for additional directions.
