- Refer to M.S.D.S. for additional safety information.

HIMIS RATINGS

Coated Wheel Cleaner

CLEANS, BRIGHTENS & RESTORES
without Scrubbing, Buffing or Polishing

EASY! JUST SPRAY ON AND HOSE OFF.

This special and unique formula is designed for safely cleaning clear-coated, painted and anodized wheels. These wheels come from the manufacturer with decorative and protective finishes that could be dulled, scratched or removed with abrasive polishes or harsh chemicals. This product is both gentle and strong. Safe for the finishes but chemically balanced to quickly and effectively remove dirt, grime, brake pad dust and road film. And it does it in one minute, without rubbing or scrubbing and without scratching or damaging the finish.

CAUTION: May harm polished aluminum.

IMPORTANT: This product is intended only for surfaces that have been decorated in the original manufacturing process.

DIRECTIONS: Rinse off loose dirt with strong water spray. Then spray cleaner onto surface and let set for ONE MINUTE. Immediately remove cleaner with forceful spray from garden hose. Dry with clean soft cloth. **NOTE:** Do one wheel at a time.
