## DIRECTIONS FOR USE

**INDOORS: SPACE SPRAY:** Apply undiluted as a very fine mist space spray through manually operated equipment or with electrical, other powered applicators or mechanical misting equipment. Fill the room with a fine mist spray at the rate of 5 fl. oz. per 5,000 cu. ft. Leave room closed for one hour. Ventilate thoroughly before reentry. **CONTACT SPRAY:** Apply as a coarse wet spray on walls, floors and other surfaces of bins and storage handling areas, unloading and processing areas being careful to treat cracks and crevices in these places, as well as beneath sinks, inside conveying, processing and handling equipment, and around the bases of heavy machinery equipment. **TO KILL ANTS:** Spray doors, around window frames, ant trails and hills. **TO KILL FLEAS:** Do not spray dogs, cats or horses with this product. Spray directly on insects as well as floors, floor coverings, and base boards, cracks and crevices, infested furniture, and animal resting areas. Hold spray nozzle about 18 inches from areas to be treated. Apply spray until area is moist. Treat pet bedding the same way. Also spray entire inside surface of dog houses. Repeat as necessary. Do not allow pets to contact treated areas until spray has dried. **OUTDOORS:** To control nuisance pests around buildings, patios, and paved areas: Apply as a contact spray. Spray directly on insects. Do not spray on turf or plants. **TO KILL ANTS:** Apply as a contact spray, as for indoor use. **THERMAL APPLICATIONS:** This formulation is to be used undiluted in only such portable thermal applicator equipment that can deliver spray particle sizes within the aerosol size range. **THERMAL APPLICATIONS INDOORS:** For the control of house flies, mosquitoes, and gnats in warehouses, restaurants and industrial institutions. Shut off ventilating systems, air ducts, air-conditioning equipment and close off room or area to be treated. Extinguish all flames and pilot lights. Apply as a dry fog at the rate of 1 fl. oz. per 1,000 cu. ft. of space. Direct nozzle of thermal applicator toward upper corners of the room and along the ceiling. Close off room for at least one hour. Do not remain in the treated areas. Ventilate thoroughly before reentry.
