

# aero<sup>®</sup> acid cleaners

AERO<sup>®</sup> Acid Cleaners are concentrated, aggressive and fast-acting

## HIGHLIGHTS

- Concentrated
- Fast acting
- Labor saving
- Inhibited
- Extended shelf life

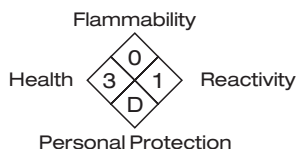

## TYPICAL PROPERTIES

- Specific Gravity: **1.08**
- pH: **<1.0**
- Acidity: **16.5%**
- Appearance: **Amber liquid**
- Odor: **Hydrochloric Acid**

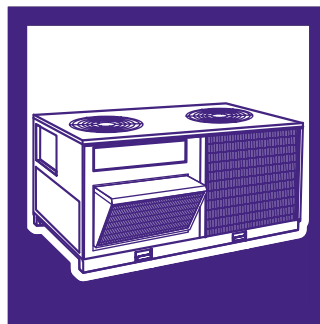

## SAFETY CAUTIONS

- Keep out of reach of children.
- It is recommended that protective gloves be worn when using this product.
- Make sure there is adequate ventilation.
- Refer to M.S.D.S. for additional safety information.

## HMIS RATINGS

## Fast Klean Lime and Scale Remover

**Fast Klean** is a concentrated acid formulation for removing mortar stains and film from bricks, masonry and stonework. **Fast Klean's** powerful formula helps penetrate, break up, and dissolve lime deposits, scale, mineral deposits, and rust. It combines the rapid action of old fashioned acid-type cleaners with the built-in protection of modern inhibitors. A special inhibitor provides "cling" power and slows down the drying process to prevent streaking.

**Directions:** Apply, let stand, and rinse thoroughly to expose a bright, streak free surface. Dilutes with up to 4-8 parts water.
