

aero disinfectant cleaners

All AERO® disinfectant cleaners are federally registered with the EPA

HIGHLIGHTS

- Hospital-grade disinfectant
- Food contact surface no-rinse sanitizer
- Odorless, colorless
- Effective cleaner / deodorizer
- Effective against HIV-1, Hepatitis B, Hepatitis C, VISA, MRSA

TYPICAL PROPERTIES

- Specific Gravity: **1.04**
- pH : **11.5**
- Active quaternary ammonium chlorides: **4.5%**
- Appearance: **Clear**
- Odor: **Odorless**
- USDA: **D-2**

SAFETY CAUTIONS

- Keep out of reach of children.
- Corrosive. Causes severe eye and skin damage.
- Refer to M.S.D.S. and product label for additional safety information and directions for use.

HMIS RATINGS

The Big 1

Cleaner-Disinfectant-Deodorizer-Fungicide Sanitizer-Mildewstat Designed for Hospital and Institutional Use

The Big 1 is a cleaner, disinfectant, and sanitizer designed for institutional use, such as hospitals, nursing homes, and schools where housekeeping will be of prime importance in controlling the hazard of cross-contamination from environmental surfaces.

The Big 1 can provide the assurance you need in this area, when used as directed. For use on floors, walls, sink tops, garbage pails, telephones, restrooms, bed pans and operating rooms. Effective against *Staphylococcus aureus*, *Salmonella choleraesuis* and *Pseudomonas aeruginosa*. Also effective against pathogenic fungi, *Trichophyton interdigitale*.

When used for sanitation of previously cleaned food processing equipment and food contact items, limit the active quaternaries to 200 ppm.

DIRECTIONS-

DISINFECTION: Use at 2 ounces per gallon. This product is effective against *Pseudomonas aeruginosa* PRD 10, *Escherichia coli*, *Klebsiella pneumoniae*, *Salmonella schottmuelleri*, *Salmonella choleraesuis*, *Streptococcus salivarius*, *Brevibacterium ammoniagenes*, *Streptococcus faecalis*, *Shigella dysenteriae*, *Enterobacter aerogenes*, *Staphylococcus aureus*, *Methicillin resistant Staphylococcus aureus* (MRSA), and *Vancomycin Intermediate resistant Staphylococcus aureus* (VISA) and meets all requirements for hospital use. This product when used on environmental, inanimate hard surfaces at 2 ounces per gallon of water exhibits effective virucidal activity against Influenza A2/Japan (representative of the common flu virus), Herpes Simplex Type 1 (causative agent of fever blisters), Adenovirus Type 2 (causative agent of upper respiratory infections), Vaccinia virus (representative of the pox virus group), Hepatitis B Virus (HBV), Hepatitis C Virus (HCV), and HIV-1 virus. At this level, the product is fungicidal against pathogenic fungi. For best results, use The Big 1 with a cloth or mop and apply to walls, floors and other hard surfaces. For heavily soiled areas, a preliminary cleaning is required. Thoroughly wet all surfaces. Treated surfaces must remain wet for 10 minutes. Fresh solution should be prepared daily or when the use solution becomes visibly dirty.

SANITIZATION: Thoroughly wet all surfaces. Treated surfaces must remain wet for 1 minute. Fresh solution should be prepared daily or when the use solution becomes visibly dirty. For mechanical applications, use solution may not be reused for sanitizing application. If used for sanitization of previously cleaned or food contact items, limit the level of active quaternaries to 200 ppm. (2. ounces per 3.5 gallons) For heavily soiled or organic matter, a pre-cleaning step is required. Gross food particles and soil must be removed by a pre-flush, pre-scrape, or pre-soak treatment. All surfaces must be thoroughly washed with a good detergent and rinsed with potable water before sanitizing solution is used.

See product label for additional directions.
