Brake Cleaner

Non-Chlorinated

Non-Chlorinated BRAKE CLEANER is an effective formulation that will not contaminate recycling waste solvent cleaning systems. This high quality product can be applied to discs or drums, as well as CV joints to lift and wash soil, grease, oil, fluids and contaminants without disassembly of the brake system. This blend of solvents will not leave a residue. Dries quickly. Note: If used on painted or plastic surfaces, it is recommended that the product be tested in a remote area to insure compatibility.

DIRECTIONS

1. Pour into chemical resistant sprayer.
2. Apply generously to the work surface to be treated.
3. Allow to either air dry or wipe dry with a soft cloth.
