

# aero aerosol herbicide

***YES It's the same KNOCK OUT sold for years in drums, pails and gallons... only now we've packaged it in a convenient aerosol that's perfect for tight, hard to reach areas in and around parking lots, rail lines, fence lines, and more!***

#### HIGHLIGHTS

- NON-FLAMMABLE
- CONTAINS BROMACIL & 2-4-D
- CONVENIENT AEROSOL, NO MIXING OR MEASURING!
- NON-SELECTIVE
- SOIL STERILANT
- OIL-BASED
- FAST ACTING / LONG LASTING
- KILLS WELL ESTABLISHED VEGETATION
- KILLS WEEDS AND GRASSES: Foxtail, Ryegrass, Wild oats, Crabgrass, Cheatgrass, Broomsedge, Ragweed, Lambsquarter, Turkey muellein, Johnsongrass, Saltgrass, Bouncing bet, Bracken fern and Horsetail
- PREVENTS RETURN OF WEEDS FOR ONE GROWING SEASON
- CREATES NO HAZARDOUS DISPOSAL

#### APPLICATIONS

- PARKING LOTS
- CEMETERIES
- STORAGE YARDS
- FENCE LINES
- RAIL LINES
- BUILDING FOUNDATIONS
- LOADING RAMPS

#### TYPICAL PROPERTIES

- Specific Gravity: **0.89**
- Isooctyl ester of 2-4-D: **1.09%**
- Bromacil: **0.98%**
- Petroleum Oil: **97.93%**
- Coverage-  
Annual Weeds: **1 can per 64-128 square feet**  
Perennial Weeds: **1 can per 36 square feet**
- Density: **7.4 lbs/gal**
- Odor: **Petroleum**
- Appearance: **Brown liquid**
- Net Weight: **15 oz (425g)**

#### SAFETY CAUTIONS

- Keep out of reach of children.
- May be fatal if swallowed, absorbed through skin or inhaled. Causes skin irritation. Do not breathe spray mist. Do not get in eyes or on clothing.
- Refer to M.S.D.S. and product label for additional safety information and directions for use.

#### HMIS RATINGS

- Health: 2
- Flammability: 2
- Reactivity: 0
- Maximum Personal Protection: G

## Knock Out

#### NON-SELECTIVE WEED KILLER

**Controls Weeds and Grasses through Foliage and Root Contact**

Knock Out is a solvent based non-selective weed killer designed to be applied on non-cropland areas where bare ground is desired. It contains two active ingredients: Bromacil, which controls weeds through root contact and gives season-long residual control, and 2-4-D which controls weeds through foliage and gives immediate weed burn down. The degree of weed control and duration of effect will vary with the amount of product used, soil type, rainfall and other conditions. Apply any time of year except when the ground is frozen. Best results are obtained after predominant species are well established in late spring or early summer.

**General Weed Control:** To control most weeds for an extended period of time on non-cropland areas, such as: parking lots, fence rows, loading ramps, railroad sidings, storage yards, around buildings and industrial plant sites, apply 1 can per 36-64 sq. ft.

To control annual weeds and grasses such as foxtail, ryegrass, wild oats, crabgrass, cheatgrass, broomsedge, ragweed, lambsquarter and turkey mullein, apply 1 can per 64-128 sq. ft. For other hard-to-kill perennial weeds and grasses, such as Johnsongrass, saltgrass, bouncing bet, bracken fern and horsetail, apply 1 can per 36 sq. ft.
